# Claiming Unemployment Benefits in Michigan

If you become unemployed, you may qualify for unemployment insurance benefits. These benefits are intended to provide temporary income as you seek new employment. The following is basic information about Michigan's unemployment insurance program, which is administered by the Unemployment Insurance Agency (UIA).

## How to file a claim for unemployment benefits.

Once you become unemployed, you have two ways in which to file a claim for unemployment benefits. You can file a new claim or reopen an existing claim for benefits by:

1. **Telephone** -- call our special toll-free telephone number -- **1-866-500-0017**. You can call and file by using a touch-tone telephone from anywhere in the United States and Canada. Your scheduled time for filing by telephone is based on the last two digits of your Social Security number.

2. **Internet** -- visit our website -- [www.michigan.gov/uia](http://www.michigan.gov/uia). The website is available from 7:00 a.m. Monday through 7:00 p.m. Saturday (*Eastern time*). If you need a computer with Internet access, visit your local public library. Most have computers with Internet connections available for public use.

Once you file your new claim, you will be mailed:

- A determination showing if you qualify based on the wages you have earned, the amount of weekly benefits and the number of weeks you may receive.
- If there is an eligibility issue with your claim, you will receive a separate notice.
- A packet with detailed information about your rights and responsibilities for unemployment benefits. *Please read this material carefully.*

## Qualifying requirements

The UIA will look at your **standard base period** to determine if your earnings qualify you for unemployment benefits. The standard base period includes the first four of the last five completed calendar quarters prior to when you filed your claim. The four calendar quarters in a year are: January – March, April – June, July – September and October – December.

If you cannot qualify based on your standard base period, the agency will check your earnings in the **“alternate” base period**, which is the four most recently completed calendar quarters.

There are two ways in which your earnings may qualify you for unemployment benefits:

- **“Regular” qualifying method:** (a) As of April 1, 2007, you must have wages in at least two quarters in your base period, and in one quarter, your wages must be at least **\$2,697** and (b) total wages for all four quarters must equal at least one and a half times the highest amount of wages paid in any quarter of the base period. ( $\$2,697 \times 1.5 = \$4,045.50$ )  
**OR**
- **Alternate Earnings Qualifier (AEQ):** (a) You must have wages in at least two quarters; and (b) total wages for all four quarters must equal at least 20 times the state average weekly wage (SAWW). For 2007, the AEQ amount is **\$16,063.40** [ $20 \times \$803.17$  (SAWW) = \$16,063.40].

## Eligibility requirements

To be eligible for unemployment benefits, you must be unemployed and able to, available for, and actively seeking suitable full-time work. Unless instructed otherwise by UIA staff, you must also register for work within two to three business days of applying for benefits by filing your resume with the Michigan Talent Bank and by reporting to your local *Michigan Works!* Agency service center.

## Receiving your benefits

Once you qualify and are eligible to receive unemployment benefits, UIA will mail your

benefit checks to you. After qualifying, you will continue to report to UIA by phone to certify about your eligibility for benefits, using Michigan's Automated Response Voice Interactive Network (MARVIN). Your appointment time for calling MARVIN is based on your Social Security number. MARVIN's toll-free telephone number is **1-866-638-3993**.

Your first benefit check will cover your first two weeks of unemployment. UIA generally processes and mails the check after you certify through MARVIN that you meet all of the eligibility requirements. You must certify every other week in order to receive your unemployment benefits.

### **Amount of unemployment benefits**

UIA staff calculates how much you receive in unemployment benefits by multiplying the highest amount of wages paid to you in any base period quarter by 4.1%. UIA adds \$6 for each dependent you claim, up to five dependents. The weekly benefit amount is capped at \$362.

To determine how many weeks of benefits you may receive, UIA multiplies your total base period wages by 43%, and then divides that answer by your weekly benefit amount. The claim, however, cannot be less than 14 weeks or more than 26 weeks.

### **Receiving unemployment benefits while working**

In some cases, you can accept part-time work while receiving unemployment benefits. However, your work must be less than full-time, and your benefits will be reduced according to *how much you earn in the week for which you are claiming benefits*.

There are three basic principles that affect how much you can earn while receiving unemployment benefits: **(1)** if your earnings are equal to or less than your weekly benefit amount, then your benefits are reduced by 50¢ for every dollar you earn; **(2)** if your earnings exceed your weekly benefit amount but are less than 1½ times your benefit amount, then your total earnings are subtracted from 1½ times your weekly benefit amount; and **(3)** the combination of your weekly benefits and earnings cannot exceed 1½ times your weekly benefit amount.

**A point to remember:** The number of weekly benefit payments remaining in your claim will be reduced by one full week for each week you receive *any* benefit payment.
