RE: HAND WASHING & DISEASE CONTROL!

If an infectious disease outbreak hits your business, you could suffer high absenteeism, lower productivity, and potentially significant lost revenue.

- In 1/3 of infectious disease outbreaks, *hand washing was a significant contributing factor*, according to the Centers for Disease Control and Prevention.
- Infectious diseases are the third leading cause of death in the U.S. Each year, there are:
 - 150,000 new hepatitis A, 300,000 new hepatitis B, and 35,000 new hepatitis C infections
 - 25,000 TB infections
 - 3,000 bacterial meningitis infections; 300 are FATAL!
 - 36,000 deaths from the flu and its complications

Order our Hand Washing poster and help protect your business, your employees, and yourself from liability and lost revenue.
