# BizCard Reader 5

All-in-One Business Card Management Solution

## NewSoft Business Card Scanner An Elegant Card-Size Scanner with Auto Feed and Scan Support

- \* Gray-scale A8 scanner
- \* Connect through USB Port -- no additional power cord required
- \* 0.2lbs(90g)
- \* 4" x 2.4" x 0.9" (102x 62 x 23 mm)

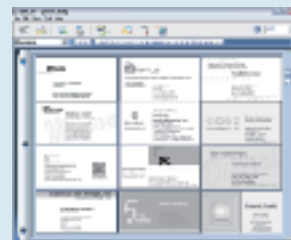

### ▲ DECK VIEW

A card-file view to quickly organize, search and view your business card database.

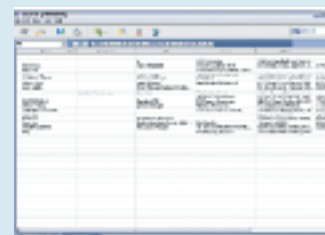

### ▲ EDIT VIEW

Edit, reconfirm or update scanned contact information.

### ▲ ALBUM VIEW

A convenient virtual business card album displays as many as twelve contacts simultaneously.

### ▲ LIST VIEW

Easily sort valuable contact information by column and view the data as a complete spreadsheet listing.

## Comprehensive Contact Management - Easy-to-Use

- \* **"Background Processing"** allows users to continue scanning without causing interruption to the data processing.
- \* **"Batch Processing"**
- \* Manage, categorize and update contact information even saves dual-sided images. 1-1 1-2
- \* **"Search Manager"** lets you find cards in seconds. 2
- \* **"Smart Label Producer"** offers ready-to-use templates that can be easily adjusted for fully customized label printing.
- \* Share contact data with other applications using \*.csv file format.
- \* Multi-lingual support for a boundless digital world. 3
- \* Click and link directly with the contact's URL or E-mail. 4
- \* Supports multiple databases and data transfer between them.

## Portable - Compatible

- \* **"Sync-n-Go"** transfers contact data to PDAs within a few clicks.
- \* Ideal for synchronizing Lotus Note, Act, Microsoft Outlook or Microsoft Outlook Express data between desktop and portable devices such as Pocket PC or Palm.
