

# DVD PowerSuite 2

The Tools to Easily Create Professional-Looking DVDs and CDs

Presto! DVD PowerSuite 2 makes DVD editing, authoring, burning and sharing quicker and easier than ever before, enabling you to make high-quality DVDs!

## Presto! DVD PowerSuite

### Instantly Burn Video Clips to Disc

- Capture videos from DV (IEEE1394), TV Tuner card, Analog capture card (for Hi8, V8, VHS), or other devices; convert them to MPEG-2, author and burn with a single click.
- Record directly to DVD-Video, DVD+VR, VCD, or SVCD formatted discs.
- Create exciting disc menus with Auto Chaptering.
- Capture DV with 16:9 widescreen movie effects.
- Record to disc or hard disk folder in one easy step.
- Supports 8.5 GB Double Layer disc for up to four hours of DVD-quality video, 16 hours of VHS-quality video.

### Flexible Options Let Users Personalize and Customize Menus

- Enhance your DVD creations with still background themes, motion background themes, transition effects, change key frames, add animated menus, set music and video to play in the background, and add multi-layered menus.
- Create photo slide shows with background music, automatic transition effects and captions for each photo.
- Import options to directly capture from a variety of sources, or import existing home movies.

Motion Button

### Edit a Burned Rewritable Disc and Make Changes immediately

- Supports editing DVD-Video and DVD+VR formatted discs.
- Edit directly on DVD-VR formatted discs recorded on consumer DVD recorders.
- Supports changing menus as well as adding, deleting, merging and splitting videos.
- Supports playlist editing on DVD-VR.

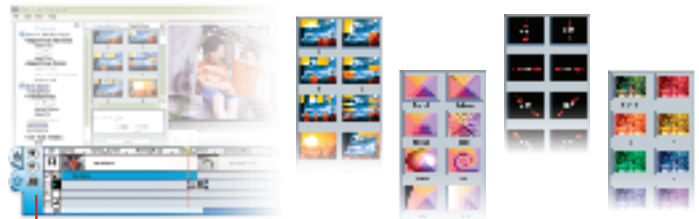

### Photo Editing Tool Simplifies Cropping and Enhancing Tasks

- Rotate, rescale and edit digital photographs.
- Adjust picture color and contrast, remove red-eye and add special effects.

### Video Editing Tool Helps Users Make Video Clips More Attractive

- Advanced editing for captured and imported videos.
- DV batch capturing and scene detection supported.
- Finished video can be written back to tape, burned onto a disc or sent as video mail.
- Effortlessly cut and move or delete sections of your home movie following the step-by-step guidelines and five easy-to-use time lines (video, audio, background music, transitions, and text).
- Easily apply special effects including color, video fun, audio, transition, and 3-D text effects.
- Real-time preview of your edited video without rendering.

Five Timeline Tracks

### Make High Quality Music CDs

- Automatic conversion of wma, mp3, wav, and music CD tracks into the audio CD format.
- Automatic music title and artist name tracking and retrieval from Internet web sites.
- Easy playlist creation for MP3 disc: just drag and drop your favorite music files to immediately record.
- Burn more than 2000 songs on a single DVD+R DL disc.

### Back Up Data

- Supports on-the-fly burning.
- Supports multi-border/multi-session for DVD+R/R.
- Supports Quick Format, Quick Grow, and Quick Erase.
- Supports 8.5 GB Double Layer disc.

### Make Backup Copies of CDs/DVDs

- Supports single drive copying.
- DVD-Video/DVD+VR/DVD-DATA/SVCD/VCD/CD-DA/CD-DATA disc copying.
- Supports 8.5 GB Double Layer disc.

### Built-In Player Plays Video or Audio Discs and Files on Demand

- Plays DVD-Video and DVD+VR discs.
- Plays AC-3, 5.1 channel audio.
- Professional DVD playback quality through integrated Intel IPP4 technology.

### Finish Projects with a Personalized CD/DVD Label and Jewel Box Cover

- Supports printing Avery standard labels.

### System Requirements:

- Windows® 98 SE, 2000, Me, or XP
- Intel® Pentium III, 500 MHz or higher processor (Pentium III, 1 GHz or higher is recommended for MPEG-2 editing. Pentium 4, 2.4 GHz or higher is recommended for MPEG-2 real-time capturing)
- Minimum 128 MB of RAM (256 MB is recommended)
- Minimum 350 MB hard disk space for program installation. At least 1 GB of available hard disk space for making a full-sized VCD; 10 GB is recommended for making a full-sized DVD.
- Display card supporting 16-bit high color or higher (24-bit true color is recommended)
- Rewritable CD or DVD drive (optional)
- Microsoft DirectX 9.0a or later (DVD PowerSuite will detect and upgrade DirectX to version 9.0a.)
- IEEE 1394 card or USB for using a DV camcorder, PC camera, digital camera, or scanner
- Capture Card or audio/video box for VHS, VCR, Hi8, V8, etc.
- TV Tuner Card for TV program capturing
